

## **MY FAVORITE VACATION DESTINATION**

Well, one of my favorite destinations that I had, was to travel to Colombia, a very nice and welcoming country, the truth is, I went to the City of Medellin, because I went because some **RELATIVES** of mine who are my uncles live there, **AND** a friend of mine **ALSO** has her relatives who are her cousins living there, we both went together **BUT** when we arrived each one left on her own.

Well, I arrived at my uncle's house and I loved the **NEIGHBORHOOD** where they lived, especially the treatment of people. My uncle told me that if I encouraged myself to live here I COULD HAVE a house in the neighborhood but that for that I SHOULD HAVE my ideas very clear if I made that decision, **BECAUSE** I had to think about it very well, **THEN** I went to a park, and I saw many **ADOLESCENTS** doing things, like dancing, singing, doing theater, and many more things, and **ALSO** playing instruments, that was in the Parque de los Alumbrados in Sabaneta, **A place where it is very cold and I happily wear my REUSABLE clothes that I have for the cold**, **IN ECHO WE ALSO** went to a restaurant where they sold very tasty food, **JUST when we arrived they were putting the REUSABLE chairs that were being cleaned**.

I **WOULD HAVE** to get to know many more places, **I REALLY** got to know a lot, and their food and desserts are very tasty, **BUT IN FACT** none compare to Peru, my uncle's neighbors told me that I SHOULD stay and live there, because they like it Much as a person, I told them that I COULD think about it at some point, that was my trip, **AFTER** I had to go back and it was sad to leave my uncles, **BUT** I had to come to continue with my business, Very nice experience.
